All participants must respect the French rules of the road, keep to the right side of the road, and ensure their own safety and speed control. Cyclists should not be followed by back-up cars or vehicles (the organizer refuses to accept any responsibility in case of accident caused by or with this vehicle). The throwing of any object, container, food, document, paper or rubbish on the road is strictly forbidden. Regulatory equipment including lighting, visibility vest, are mandatory in tunnels. The non-respect of these rules may be the cause for disqualification.

ARTICLE 5: INSURANCE

Civil liability insurance policy: Organizers and participants are covered for civil liability insurance policy, subscribed by the organizer, regarding injury or property damage accidentally caused to a third-party or to each other. This contract only offers coverage on the official route and during the race, for lawfully registered participants and controlled at the start and the finish, official checking points (manually-operated or timer mat) as evidence.

Physical Injuries, individual insurance accident: According to the article L321-4 of the Sport Code, the organizers emphasize that participants subscribe to an insurance contract which cover physical injuries they might suffer during this event. Participants must determine to protect themselves for that kind of damage. License-holders have to find out from their Federation if they are insured properly for physical injuries in cycling events. Otherwise, we recommend subscribing to the insurance we offer or getting more guarantees to their own insurance to license and no license-holders.

Property damage and responsibility: Neither the Organization or his insurer are not liable for participants' property damage such as damage cause during a fall or damages due to theft. Each participant must insure themselves against that kind of damages with their own insurer. Participants acknowledge that organizers are not liable for watching their belongings, and cannot be held responsible in case of loss or theft. Objects, accessories or bikes delivered to a third party during the event (organization's members or not) will be under the responsibility of the participant.

Also, to have with them spare parts (inner tubes are required), and appropriate clothes. A technical assistance service may or may not be provided at the start, and at fixed service points along the ride (billed parts, free labor costs). This service cannot be responsible for accident or fall following service. Equipment and bike accessories must be fixed properly so as to avoid any falls risk, breakage or loss on the road. Any negligence from the participant will involve his entire responsibility.

ARTICLE 9: The defined course might be changed, the event delayed, or canceled without notice, only by the race director. The stop times or time limit are determined and limited at a fixed and defined time. All participants still on the road after the time limit, will be suspended from the race. ARTICLE 11: In case of infringement, the faulty participant will be solely responsible at his own risk in a penal law procedure, but also, he/she will be solely responsible civilly for accidents in which he is the offender or the victim, directly or indirectly.
